Meeting-to-Action: An AI Productivity Workflow

Turn every meeting into clear notes, owners and follow-ups in under five minutes.

1. Record or paste notes

Use your meeting tool's transcript, or paste rough notes into your AI assistant.

2. Summarise

Prompt: 'Summarise this meeting in 5 bullets for someone who missed it. Then list decisions made.'

3. Extract actions

Prompt: 'List every action item as a table: task, owner, due date. Flag anything without an owner.'

4. Draft the follow-up

Prompt: 'Write a short, friendly follow-up email to attendees with the summary and action table.'

5. Review and send

Check names, dates and anything sensitive before sending. Save prompts that worked for next time.
